

KALYMNOS NEW ROUTE UPDATES * 2013

Compiled by Aris Theodoropoulos | March 2013

- Some of the new routes need further traffic to clean or to confirm grade, and they are suggested for very experienced climbers only. Both belayer and climber are strongly urged to wear **helmets**. BEWARE: ON ALL NEW ROUTES THERE IS ALWAYS THE POSSIBILITY OF LOOSE ROCK!
- All routes are listed from **left to right**.
- For **new crags** not included in the latest guidebook edition (2010): some info and approach instructions are included below.
- For new routes at **older crags** (included in the 2010 guidebook): routes are listed from left to right and they are numbered according to the existing numeric order in the guidebook. For example: route 'Early Bird' at sector *Odyssey* is to the right of route '3.Mythos'. So the new route is listed as '3.1 Early Bird'.
- All feedback and comments on new routes is much appreciated. Please [email us](#).

ATTENTION! AVOID THE ROUTES IN PURPLE. IT IS POSSIBLE THAT THE BOLTS USED IN THESE ROUTES ARE BAD QUALITY (RECALLED BY THE MANUFACTURER, ROCKLAND) AND THAT THE ROUTES ARE DANGEROUS TO CLIMB. UNTIL THESE ROUTES ARE CHECKED AND RE-BOLTED, PLEASE DO NOT CLIMB.

For more info, please see [this older post](#).

SECTOR: ARGINONTA SKYLINE Subsectors: Ovoland (Left), Little Verdon (Right) Above the Red Wall of Arginonta you can see a very long cliff; this is Ovoland and Little Verdon (or Sarkozyland). One path mainly goes along the base of the cliff. Approach: at Arginonta take the road to Vathy for 2 km; park at a concrete little wall with red marks and the letter 'K'. Go up following the red marks left of the little gully. After 10 min, walk up at the base of the cliff, then later on the good path (this way starts near the pass of the road to Vathy and goes to						

Panaghia Galatiani chapel and the top of Galatiani). Soon after, you are near Little Verdon sector. The grey slab Ovoland (Ovomaltine is a famous Swiss chocolate) is left of the big orange overhang. Time: 30 min.

SECTOR: BIG SHADOW

This new sector is the “big wall” above the road between Kasteli – Arginonta.

Exposure: NE, with a bit of sun in the morning.

Approach: soon after the big turn of Kasteli / Dolphin Bay sectors, on the right of the road there is a small concrete building. Park and follow the 3 first electric poles and the red marks / cairns, then straight up the left side of the vague ridge; cross a small rock band, then follow small ledges of the left side to the base of Big Shadow. Time: 50 minutes.

(Some routes start by a short scrambling section. All routes have been made from the bottom).

For more info please see this older post: <http://climbkalymnos.com/?p=5567>

SECTOR: KRYPTOS						
This new sector is lost in the upper part of the north-east side of Galatiani, 590m, the high mountain above Skalia-Arginonta.						
Approach: at Arginonta take the road to Vathy for 2 km; park at a concrete little wall with red marks and the letter 'K'. Go up following the red marks left of the little gully. After 10 min, walk up at the base of the cliff, then later on the good path (this way starts near the pass of the road to Vathy and goes to Panaghia Galatiani chapel and the top of Galatiani). Soon after you are under Little Verdon sector; keep going on the path to the long flat pass (at about 450m, you can see a part of Kryptos; take care, sometimes at the pass the wind can be very strong whereas there might be nearly no wind on the cliff). At the end of the pass see a letter 'K' on the rock. Go down the couloir on your right for about 40m, then follow a ledge (fixed rope) and climb up an easy short pillar, 2b, to arrive at the left side of the cliff (fixed rope). Time: 1 h 15 min.

SECTOR: PALIONISOS						
Subsectors: Red Wall, Palionisos Bay.						
Palionisos Bay is a new sector overlooking the beach and the small hamlet.						
Approach: Follow the road going from Masouri to Emporios. At the village of Skalia, turn off towards Palionisos. Go to the end of the road and follow the dirt road, passing taverna 'Nikolas'. Before the beach, turn left to taverna 'Ilias' and park at the taverna's parking lot at the end of the road. From there continue along a fence; then scramble up the hill to the obvious crag with the orange roof. Time: 5-10 min. More info: http://climbkalymnos.com/?p=5880

SECTOR: PROPHITIS ANDREAS

A new sector at the long cliff on the skyline above Skalia village. Mostly wall climbing on high-quality gray rock. Great view.

Approach: Drive on the road to Palionisos and park at the highest point, opposite the chapel. Follow an old trail going East, on the far (Palionisos) side of the ridge – tricky to find from below. Time: 20 min from parking.

SECTOR: PSILI RIZA

Also unofficially known as 'The North Face (TNF) Crag', it was bolted specifically for -and revealed during- the 2012 TNF Kalymnos Climbing Festival.

Approach: Sector Psili Riza is located inland, high above the village of Panormos. From Masouri, take the road leading to Pothia (the main port). Go past Elies village and the big super market 'Smalios' on the right. About 50m past the super market, turn left. Go to the end of the road and park in front of the monastery (St. Panteleimon). If access through the monastery is open, walk to the end of the road inside and up the steps to the right. Go out through the gate and close it behind you; then, follow the trail marked in red paint and cairns. After 30min the uphill trail traverses slightly leftwards and comes to the foot of the massive cliff.

If access through the monastery is closed, start at the parking lot and traverse rightwards around the monastery until you come to the start of the marked trail.

Walking time: 45-55 min. More info: <http://climbkalymnos.com/?p=6742>

SECTOR: SEA BREEZE

Subsector: Great Canyon

New sector between sectors Arhi right and Sea breeze left.

Approach: park as to go to Pocket Wall – Sea Breeze and follow the gorge to the entrance of the canyon. Follow the blue marks up and to the right, to the foot of the grey slab (8 – 10 min). Routes 1 through 9 are here. These routes start by an easy slab, cross a big ledge then go to a vertical wall. Most of the wall is steep, white/red on the left, gray in the middle and white/red on the right. For routes 10 through 16, walk up on the right 1 min more, follow the ramp to the big ledge. Routes on the right are in overhang and in shadow most of the time. Often rock is sharp but most of the climbs are well protected. More info: <http://climbkalygnos.com/?p=5567>

SECTOR: SECRET GARDEN

An important recent addition to Kalymnos climbing, already widely considered as one of the major crags on the island.

Approach: Go to Skalia village and take the road over the col toward Palionisos (as for sectors Sikati and The Beach). Drive past the parking spot for Sikati and continue down the winding road; park as for The Beach sector (where the paved road intersects a short dirt road on the left leading to a small clearing). Walk down the dirt road to the clearing and continue NE to the col. The path is clearly visible and marked with cairns and blue paint. Go over the col, then down and rightwards into a small ravine. Don't worry if you can't see the cliffs yet. Keep following the blue paint around the hill and to the right. Once you get around the small escarpment on your right, the cliff reveals itself down to the right.

Walking time: 25 min. More info: <http://climbkalymnos.com/?p=6715>

SECTOR: TELENDOS- LAMBDA

This new sector offers more than 30 splendid routes in a fantastic setting over the sea. The climbing is very long on vertical and slightly overhanging rock. Even if there are sharp bits, the climbing is mainly on good, but well-spaced pockets. **Equipment:** bring an 80m rope and 18-24 quickdraws. Many routes are exactly 40m. **Approach:** from IROX to Pescatore and further along the marked path to the obvious cliff. Time: 25min from IROX.

SECTOR: TELENDOS- SOUTH FACE

Subsector: Inspiration

With its big arch 100m off the ground, sector Inspiration is certainly one of the most impressive climbing areas on the islands of Kalymnos and Telendos. The view is stunning and there is still big potential of routes waiting to be equipped.

Approach: From Kalymnos take the boat to Telendos. From the village of Telendos, take the path going to Princess Canyon. Turn right 10m after the second door, and follow the yellow marks to the bottom of the crag (45 min). The path is excellent and it's also a very good walk if you are not a climber.
