# Rescue SERVICE

The Kalymnos Rescue Service is a collaborative initiative to which address incidents that are happening on the climbing trails and the mountain paths. Aiming to boost further the development of climbing and other outdoor activities on the island, we must address the Climbers Safety & Rescue first. Rescue Service on Kalymnos, consist of two separate initiatives:

- **The Alternet Greece:** An Expert business on Tourism Marketing and the development of the local tourism product, it has contributed to the formation and organization of the Volunteer Rescue Team by supporting its day to day function. The rescue service on Kalymnos, besides strengthening the sport of climbing and the other outdoor activities, it is an obligation with which Kalymnos must protect its visitors. The Alternet rescue venture is also supported by **WILD SPORT**, another local business specializing in climbing gear, which has provided the Rescue Team with the necessary equipment. The **Petzl Foundation**, welcomed the initiative and offered its support especially to the technical team of 6 rescuers, with an additional 5-day training and input from the Lyon instructors.
- **The Rescue Team** training to deal with any incident that might happen on the mountain paths or the climbing trails. It comprises of **6 trained technicians volunteer rescuers** and **14 auxiliary volunteers** and it offers its services free to those who are in need. The team formation and its every day operation are part of the **Alternet Greece** initiative.

We thank you for your support, and ask you, to...

## INFORMATION

### If an accident occurs

Or if you become aware of an accident, you must take the usual emergency precautions.

### PROTECT

Before doing anything, prevent further accidents by protecting others. Never move a casualty unless he/she is in direct-imminent danger, in which case be careful and keep their torso/neck/head aligned & protect against the sun or the cold.

Call for the rescue team at the following phone numbers:

- Alternet Greece office** +30 22430 47095
  - Kalymnos Police office** +30 22430 29301
  - National Police Emergency Service** 100
  - National Ambulance Emergency Service** 166
- If there is no telephone signal dial the **International Emergency number** 112

Soon somebody responds, try to speak clearly and give the required information:

### When you send an alert, give the following information:

WHO	Your Surname & First Name plus your Telephone Number
WHY	Nature of accident, Number of Injured, Severity of Accident
WHERE	Place, spot, sector
WHEN	Time of the accident

## FIRST AID

While waiting for the rescue team to arrive, you might have to take action quickly, to open the casualty's airway, or to stop its bleeding, or to give CPR if the heart is not beating, or to secure a casualty's conscious or unconscious positioning. These are actions to be given instructions on.

Guide the emergency team by "Y" (yes) with raised arms or by signaling SOS with a torch or a mobile phone screen at night.
