Updated ferry timetables are currently very hard to find. We have no idea why, but it is very frustrating not being able to plan travel to the island. If/when the ferry companies get their act together, we will start updating this page again.

Until then, your best bet is probably to call the Kalymos port authority and hope they can help:

NOTE: Because ferry timetables are now changing almost every week, we can't really keep up. Please always double check all three ferry websites (below) to confirm.

SF = slow ferry (anemferries.gr)

FF = fast ferry (anekalymnou.gr, lafasi.gr)
