

SECTOR HEROES

Climbing Very varied in three small caves and the connecting walls. There's very steep cave climbing on big holds and some tufas; grey walls; off-vertical pocketed walls; short and steep athletic routes.

Gear 70m rope + 16 QDs. Tie a knot at the inactive end of your rope.

Conditions Best in spring and fall. Summer climbing is also possible on days with a northerly breeze.

Shade Until 14:00 (walls) or 15:00 (caves).

Kids Good. The walk-in is fairly easy and there are some safe spots for kids away from the climbers.

Approach From Masouri, drive towards Emporios. After Skalia village, turn right towards Palionisos. At the top of the road is a chapel with a large cross. Across the road from the chapel is a sign to sector Profitis Andreas and a parking area. Park there (37.04348, 26.952927). Cross the road. The path to sector Heroes starts on the right of the chapel and heads northwest. Soon, it goes through a gate, then continues just to the left of a fence with nice views of the bay where sector The Beach is located, as well as the island of Leros. After about 10 more minutes of easy walking, you will arrive at a col with a big cairn. Turn left up to the col, then walk downhill for five more minutes. The crag is visible down to the left. **Walking time:** 15-18 min.
